In **1926**, a unique deposit of minerals was discovered in a "**Pre-historic Valley**" in **Utah**. It contained the remains of an **ancient rain forest** that geologists say was rapidly buried **60-120 million years** ago, by rising flood waters. Sand, clay & silt surrounded the plants & shielded them with an impervious barrier that protected them from the elements. This was the beginning of the plant-derived "**Colloidal Mineral**" phenomenon!

Our "Ionic Minerals" have been produced from this 'plant-derived' source since **1926** using purified water to leach out the 100% organic minerals.

BEWARE OF COPY-CATS PRETENDING TO BE THE ORIGINAL!

15 to 20 years ago, the Multi-Level-Marketing (MLM) companies jumped on the colloidal mineral 'band-wagon' and started selling copy-cat minerals by manipulating the 'Dead Doctors Don't Lie' cassette tape to fool people into thinking that they had the 'original' minerals from the 'Original Mine'. Ask them to show you their source?

What Is The "DEAD DOCTORS DON'T LIE" Tape? *

This tape was made in 1993 by Dr Joel Wallach*. The most positive thing about the tape is that it created a public awareness about the importance of minerals.**

It was recorded during a seminar to promote a Soaring Eagle's product called "Mineral Toddy". The tape has since been reproduced both legally and illegally by many companies. Most of the tapes except for the original one from Soaring Eagle Enterprise, have edited out the reference by the doctor to "Mineral Toddy".

On the tape, the doctor talks about the minerals **INSIDE** "Mineral Toddy" and mentions that they have been on the market since **1926**. (The name is now used by another company containing different minerals.)

He also mentions that it is the only nutritional product that has been on the market since **1926** that has a legal consent decree to be sold as a nutritional supplement by the federal court. (It is really only a ruling that says that the colloidal minerals mentioned in the tape, are a food and not a drug!)

In the tape, the doctor is referring to the minerals that originated from a "**Prehistoric Valley**" discovered in **Utah in 1920**. A prospector named **Thomas Jefferson Clark**, discovered the therapeutic properties of these 90 million year-old minerals and this area has been mined for them ever since.

There is a part of the tape that most distributors **DON'T** want you to hear, the "**missing last 2 minutes**", which is not included on the "censored" tapes.

At the end of the tape, Dr Wallach talks about the source of the minerals. The source is the original **Thomas Jefferson Clark mine** and this is the **ONLY** source he refers to in the last 2 minutes of the tape which many other companies have conveniently snipped off!

DON'T PAY FOR WATER!

Our Minerals are 200% to 930 % Stronger than the competition!

For example: 1 fl oz of **Active Liquid Minerals** is **455% stronger** than a competitors ' (200x) 'Concentrate' and **930% stronger** than their (10x) 32 oz bottle!
